RE: Water Plant

**PROPOSAL**

Qty.	Description	Unit Cost	Subtotal
1	Provide & install ten (10) ultrasonic level transmitters to monitor the level of the alum, caustic and sodium hypochlorite bulk and day tanks. To program the transmitters to provide the proper level readings in each of the tanks. Provide & install seven (7) motorized valve actuators on the outlet of the bulk tanks for the caustic, alum, and sodium hypochlorite.		\$13,400.00
	<b>TOTAL COST:</b>		\$13,400.00

**Re: Replacement Level Transducers and Valve Actuators**

We are pleased to offer our quotation for this project. This proposal is based on the site visit and walk through by Kirt Coonradt with Michael Duffey on May 28, 2014.

**I. Scope of Work:**

**A. Equipment**

**Sodium Hypochlorite Tanks**

**Day Tank**

- Qty 1 – Level Transducer Gems UCL-510

**Storage Tanks**

- Qty 3 – Level Transducer Gems UCL-520
- Qty 3 – Valve Actuator Dodge ES142A1

**Alum Tanks**

**Day Tank**

- Qty 1 – Level Transducer Gems UCL-510

**Storage Tanks**

- Qty 3 – Level Transducer Gems UCL-520
- Qty 3 – Valve Actuator Dodge ES142A1

**Caustic Tanks**

**Day Tank**

- Qty 1 – Level Transducer Gems UCL-520

**All Design and Configuration including:**

- Updated AutoCAD Drawings for Original Project 02C008
- Updated O&M Manuals for Original Project 02C008

**Price:**

Total Net Lot Price.....\$ 11,396.00

Valid for 30 days from Quotation Date

**B. Installation**

- Up to 40 Hours Of on-site Installation and Commissioning Service
  - Invoicing will be actual time required, per the rate sheet attached
  - Additional Start-Up and Training available per our attached Field Rate Schedule

**Price:**

Total Net Lot Price.....\$ 4,641.00

Valid for 30 days from Quotation Date
